

JUMAR R. BIBAL

Mandaluyong City, Philippines | +63 927 466 3290 | bibaljums@gmail.com

SUMMARY

Information Technology graduate with experience in front/back-end development, user interface design, and website development through academic and internship projects. Skilled in creating responsive, user-friendly, and functional web applications with a strong focus on usability and design. Eager to contribute to a development team while continuously improving technical, problem-solving, and professional skills.

EDUCATION

Bachelor of Science in Information Technology
STI College Legazpi

June 2026

EXPERIENCE

ITO-1 (School Division Office Region V)
SDO (Admin department)

February 2026 – June 2026

- Assisted in the development and maintenance of the SDO Region V website.
- Helped manage and develop **kiosk** (CSM) information systems to improve accessibility for clients and stakeholders.
- Collaborated with the IT team to support web-based projects and administrative technical tasks

PROJECTS

Library Hub (SDO Region V project)

- Developed a web-based library management system that manages books, member records, borrowing, and returning transactions through a user-friendly interface.
- Designed the interface to improve accessibility and simplify library operations.

Automated Class Scheduling System (STI legazpi Capstone project)

- Developed a web-based class scheduling system that automates timetable creation, detects scheduling conflicts, and manages faculty assignments, classroom allocation, sections, and subject schedules to improve academic scheduling efficiency.
